Professional Summary

Frontend-focused Full Stack Developer with 3+ years of experience building scalable web applications using React.js, Next.js, and modern JavaScript. Experienced in building reusable UI components, integrating REST APIs, and optimizing web performance in Agile environments.

Core Skills

React.js • Next.js • JavaScript (ES6+) • TypeScript • Redux Toolkit • REST API Integration • Component-Based Architecture • Web Performance Optimization • Responsive Design • Frontend Architecture • Agile Development

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, Tailwind CSS, Chakra UI, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, PostgreSQL, MySQL

Tools: Git, GitHub, Postman, VS Code, Netlify, IntelliJ IDEA

Work Experience

Mplify Tech Services Pvt. Ltd., Gandhinagar, Gujarat

Mar 2025 – Present

Software Developer

- Developing scalable and responsive frontend modules using React.js and Tailwind CSS for Bodhak.org, an education discovery platform.
- Improved frontend performance by **25%** through lazy loading, code splitting, and optimized state management.
- Integrated UI with **Java + PostgreSQL APIs**, ensuring smooth communication between frontend and backend services.
- Collaborated in Agile sprints using Git, Postman, and IntelliJ IDEA while following clean code practices.

PrideTechsoft Pvt. Ltd., Pune, Maharashtra

Mar 2024 – Mar 2025

Frontend Developer

- Developed scalable React.js interfaces improving UI responsiveness and overall user experience.
- Built reusable UI components and implemented efficient state management using **Redux**.
- Integrated 10+ **REST APIs** enabling real-time data rendering and reducing data loading time by 30
- Improved application performance through lazy loading, component optimization, and efficient rendering strategies.
- Collaborated closely with designers and backend developers to deliver high-quality features in Agile development cycles.

Advanced Voice Research Labs (AVRL)

Apr 2023 – Mar 2024

Software Development Engineer – I

- Engineered reusable **React.js components** improving development speed and maintainability by **30%**.
- Built internal automation tools that reduced manual QA effort by **40%**.
- Delivered client-facing features with near-zero production bugs across multiple software releases.

Projects

Bodhak – Education Discovery Platform

Tech: React.js, JavaScript, Tailwind CSS, REST APIs, Java, PostgreSQL

Live: <https://www.bodhak.org>

- Developed scalable React.js frontend modules for an education discovery platform helping users find tutors, courses, and institutions.
- Built reusable UI components for tutor profiles, course listings, and institution pages with responsive layouts.
- Implemented search and filtering features enabling users to easily discover and compare educational resources.
- Integrated frontend with Java REST APIs and PostgreSQL services while optimizing performance using lazy loading.

JoyreJoy – Marketplace for Pre-Owned Toys

Tech: Next.js, React.js, JavaScript, Tailwind CSS, REST APIs, PHP Laravel, MySQL

Live: <https://joyrejoy.com>

- Migrated an existing React.js application to Next.js improving routing, rendering performance, and scalability.
- Built responsive UI components for product listings, product detail pages, seller onboarding, and listing management.
- Implemented advanced search and category filtering to improve product discovery.
- Integrated frontend with Laravel REST APIs and MySQL backend for dynamic marketplace data.

Education

Bachelor of Engineering

CGPA: 7.79

Modern Education Society's College of Engineering, Pune

Higher Secondary Certificate (HSC)

66.31%

Rajaram Junior College, Pandharpur

Secondary School Certificate (SSC)

89.60%

DHK Prashala, Pandharpur

Full Stack Web Development Program

Masai School, Bengaluru

Certifications

- Full Stack Web Development – Masai School
